75-0554-02 & 03/972266 & 972281

Dear Mr. Hollingshead:

The Division has reviewed your construction permit application dated November 8, 2016 for an Abrasive Blasting Operation and a Surface Coating Operation. Based on the information contained in the application, it has been determined that these air contaminant sources are subject to permitting requirements. An inspection made by Division personnel on October 4, 2016, has indicated that you have been operating the above mentioned sources without a permit.

Tennessee Comprehensive Rules and Regulations 1200-03-09-.02(2) states in pertinent part as follows:

No person shall operate an air contaminant source in Tennessee without first obtaining an operating permit from the Technical Secretary except as specifically exempted in rule 1200-03-09-.04 of this chapter.

Compliance with Air Pollution Control Regulations contributes to a cleaner environment and healthier citizens by maintaining the federally mandated National Ambient Air Quality Standards (NAAQS) for air pollutants across Tennessee.

If you have any information that proves the violation did not occur (i.e., operating without a permit), or if you have any additional information regarding this violation that you would like to submit, submit the information in writing to the Technical Secretary, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15TH Floor, Nashville, Tennessee 37243 or e-mail the response letter to Air.Pollution.Control@TN.gov. To ensure that your information will be considered, it must be submitted within 20 days of your receipt of this **Notice of Violation**.

Technical inquiries surrounding this allegation of noncompliance should be directed to Sarosh Kaiser, at (615) 532-0585 or Sarosh.Kaiser@TN.gov. Questions concerning the enforcement process should be directed to Tammy Gambill at (615) 532-0531 or Tammy.Gambill@TN.gov.

Sincerely,

James P. Johnston, P.E.
Deputy Director
Permitting and Regulatory Development
